Course begins at 1PM
(lunch available from 12AM)

Session I:
Fracture Classification and
Indications for operative or
conservative Treatment

Session II:
Damage Control Orthopaedics with
emphasis on Pelvic Fractures

Session III:
Reduction and Fixation through the
anterior approach (Pfannenstiel)

Tuesday October 9th, 2007

Session IV:
Reduction and Fixation through the
Kocher-Langenbeck approach

Session V:
Reduction and Fixation through the
iliotibial approach

Course ends 4PM

Objectives of the Course

This advanced course is targeted at senior trainees. It will focus on decision making, strategies in difficult cases, management and avoidance of complications. In addition to lectures and discussions the participants will experience hands-on sawbone sessions as well as case presentations with panel discussions.

They will interact with and learn from experienced clinicians and leading Trauma surgeons.

The course will cover a wide range of treatment methods and approaches to the pelvic and acetabular area. Participants will develop an evidence based approach to fracture treatments

Speakers

Frédéric Laude	Paris /France
Raffaele Pascarella	Bologna /Italy
Thomas Mückley	Jena/Germany
Ivan Marintshev	Jena/Germany
